

Single Week Policy

The CANSail levels are offered in two-week sessions. This is necessary because there are many skills to cover and learn as a young sailor.

The intention and priority at HSC is to not break up the sessions into single weeks at the risk that it may eliminate an opportunity for another sailor to participate in the program as structured and intended.

Therefore, single weeks will not be made available for registration. The exception to this rule is when we have unsold space nearing the start date of an upcoming session.

If you are interested in a single week, please contact us a sailing@hubbardssailingclub.ca and we will record your request. This list will be monitored and once we get closer to the session date, if space is still available, we will contact you and release the space for single week requests.

The cost of a single week session will be full membership fees and ½ the cost of the session fee.
